PROFESSIONAL SUMMARY

Motivated BCA graduate and AI Full Stack Developer trainee with practical experience in US recruitment and lead generation, backed by hands-on training in Python, Django, React, JavaScript and MySQL. Built responsive web projects and a custom **OCS Sales GPT** that streamlines LinkedIn candidate outreach and recruitment-sales workflows. Combines programming fundamentals with modern AI-assisted development to solve real workplace problems and deliver clean, user-friendly applications.

CORE SKILLS & TOOLS

Python	Django	React	JavaScript	HTML / CSS	MySQL	Git / GitHub
OOP	REST Concepts	C / C++	ChatGPT	Claude AI	Prompt Design	Sales Navigator

★ **AI Tools Proficiency:** ChatGPT, Claude AI, Google Gemini, GitHub Copilot, OpenCode AI, Antigravity, VS Code — used for coding, debugging, refactoring, project planning, documentation, chatbot development and candidate communication.

WORK EXPERIENCE

Lead Generation Specialist | Orah Consultancy Services (OCS), Ahmedabad 2026 – Present

- Identify and manage US recruitment leads via LinkedIn and Sales Navigator, filtering by role, location, work authorization, availability and profile relevance.
- AI-Enhanced Workflow** — Built and use OCS Sales GPT, a custom GPT that supports personalized outreach, qualification questions, objection handling, follow-ups and senior-recruiter handoffs.
- Tailor candidate conversations to each profile and opportunity, keeping messages concise, professional and aligned with recruiting requirements.
- Use AI tools for research, message drafting and workflow organization, with human review before every candidate communication.

Python with Django Intern | Patel Web Solution 3 Months

- Worked on Python and Django web development tasks, strengthening backend fundamentals and application structure.
- Hands-on Practice** — Implemented features and practiced database-related concepts (MySQL, CRUD) through guided project work.

AI SKILLS & CERTIFICATIONS

AI Full Stack Developer Training — *TOPS Technologies (Current)*

- Hands-on training in Python, Django, HTML/CSS/JavaScript, React fundamentals, MySQL, OOP, file handling and regular expressions.
- Practical projects and interview preparation covering full stack fundamentals and AI-assisted development.

AI Workflow & Prompt Engineering — *Hands-on Practice*

- Designed structured prompts around candidate profile, target role, work authorization and next steps to produce consistent, usable outputs.
- Use ChatGPT, Claude and GitHub Copilot to generate, explain, debug and refactor code faster while keeping a human in the loop.

FEATURED PROJECTS

OCS Sales GPT — [Custom GPT](#) · [Prompt Engineering](#) · [LinkedIn Outreach](#)

Context: Built for daily use at Orah Consultancy Services to improve speed and consistency of candidate communication.

- Designed a reusable GPT workflow for LinkedIn conversations: personalized openers, qualification, objection handling and follow-up drafting.
- **AI-Core Feature** — Structured prompts around candidate profile, role, work authorization, pain points and availability, ending in a clean handoff to senior recruiters.

AI Chatbot Project — [ChatGPT](#) · [Cloud](#) · [VS Code](#) · [Antigravity](#)

Context: AI-assisted development project built during Full Stack training.

- Used AI-assisted architecture, code generation, debugging and iterative development to build and refine the chatbot logic.

Ayan Developer Portfolio — [HTML](#) · [CSS](#) · [JavaScript](#) · [GitHub Pages](#) · [Live Site](#) · [GitHub](#)

Context: Recruiter-friendly portfolio for internship and entry-level opportunities.

- Presents profile, skills, projects and previews through clean, responsive layouts with easy project discovery.
- Maintained across 24 verified builds / project iterations in the Ayan-Portfolio repository.

MovieVerse — [HTML](#) · [CSS](#) · [JavaScript](#)

Context: Movie-focused web application with structured content.

- Built a responsive, easy-to-navigate browsing experience applying frontend best practices.

New Lucky Embroidery — [HTML](#) · [CSS](#) · [JavaScript](#)

Context: Business website for an embroidery and craft materials shop.

- Designed for clear company presentation, customer enquiries and WhatsApp communication, making service info and contact simple.

STRUTHERS — [HTML](#) · [CSS](#) · [JavaScript](#)

Context: Modern responsive web project with reusable UI sections.

- Structured pages and reusable sections for consistent, polished presentation across screen sizes.

EDUCATION

Bachelor of Computer Applications (BCA) — Lokmanya College, Gujarat University

Graduate

Higher Secondary (Class XII) — Gujarat Board, Gujarat

2022 – 2023

LANGUAGES & CORE STRENGTHS

- **Languages** — English, Hindi, Gujarati
- **Strengths** — Problem Solving, Communication, Teamwork, Technical Learning, Documentation, Candidate Communication, Project Presentation
- **Career Focus** — Entry-level Full Stack Developer, Python Developer, Junior Software Developer or AI-assisted Developer roles.
